SPRING 2011
LOOKBOOK

upstate

based in brooklyn, we make garments utilizing our own take on shibori and dip dyeing. each scarf is hand dyed and one of a kind. this season we are presenting pieces that take on more creative and multi-functional shapes.

shibori is a japanese tradition of dyeing cloth using several different methods of binding, folding, or compressing the fabric. small changes in the combinations of binding and dyeing create an endless array of patterns and textures.
